JUJU INTERNATIONAL PRESCHOOL

ABOUT US

At Juju International Preschool, we believe that early childhood is a magical time of discovery, growth, and endless possibilities. Our preschool is dedicated to nurturing young minds in a safe, joyful, and inspiring environment where every child feels valued and empowered.

Guided by a team of passionate educators and caring staff, we foster creativity, curiosity, and confidence through engaging activities and a holistic curriculum that blends academics, play, and social-emotional learning. We strive to partner with parents and families to create a strong foundation for lifelong learning and success.

Together, let's shape a brighter future, one little step at a time.

DIRECTOR MESSAGE

November was a dynamic month marked by experiential learning, joyful celebrations, and strong parent engagement. Children enjoyed a hands-on Field Trip to Domino's, participated enthusiastically in the Children's Day Extravaganza Week, and explored simple cooking activities during Chef Day.

The Parent–Student Activity further strengthened family bonding through interactive tasks. The month concluded with a vibrant Orange Day Celebration, supporting colour recognition and creativity. Overall, November offered enriching experiences that supported holistic development and joyful learning for our preschoolers.

We sincerely thank all parents for your support and participation throughout the month.

As we move into December, we look forward to a festive month full of learning and joyful experiences.

Warm regards,
Juju International Preschool

OVERVIEW

November was a month filled with learning, fun, and celebration at Juju International Preschool.

We began with a joyful Field Trip to Domino's, where children learned how pizzas are made and observed the kitchen in action. From November 10 to 14, we celebrated Children's Day Extravaganza Week, packed with exciting activities that honoured the joy of childhood.

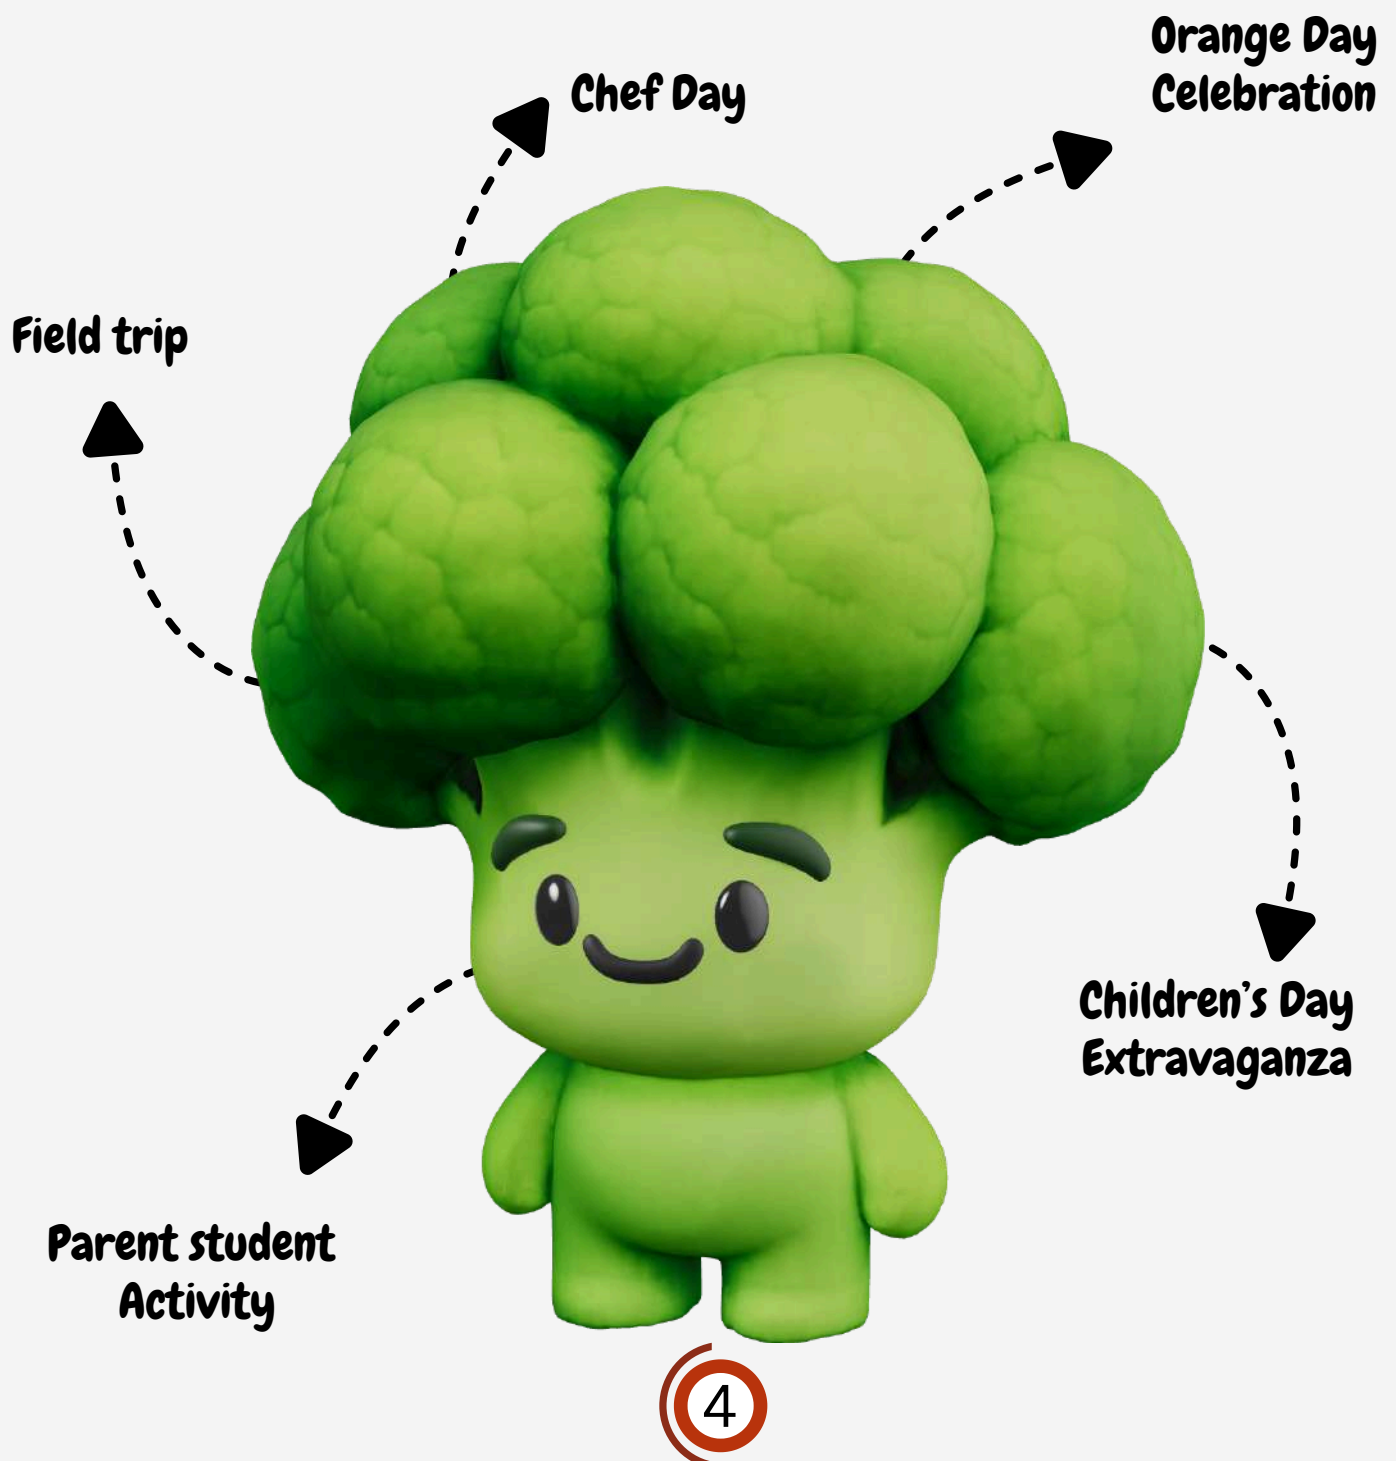

On November 21, we held Chef Day, giving children the chance to try simple food-preparation activities.

On November 22, we organised a Parent–Student Activity, where parents and children worked together on engaging tasks.

We ended the month with a bright Orange Day Celebration, where children dressed in shades of orange and enjoyed colour-based creative activities.

HIGHLIGHTS OF NOVEMBER

FIELD TRIP

– DOMINO'S, KK NAGAR

Students of Junior KG and Senior KG (November 8) and Nursery (November 22) enjoyed an enriching educational visit to Domino's, KK Nagar. The trip offered a valuable real-world learning experience aligned with our curriculum themes.

Children observed the complete pizza-making process, including dough preparation, topping arrangement, and baking. They also learned about food hygiene, the importance of cleanliness in a professional kitchen, and the different roles performed by community helpers. The Domino's team interacted warmly with the children and explained various tools and equipment used in the outlet.

Pizza

The visit strengthened students' observation, communication, and social skills while connecting classroom learning with practical exposure. The highlight for many was enjoying a freshly prepared slice of pizza after watching how it was made.

The field trip concluded smoothly under the supervision of teachers and support staff, ensuring safety and comfort throughout. It was a memorable and meaningful experience for all our young learners.

FIELD TRIP

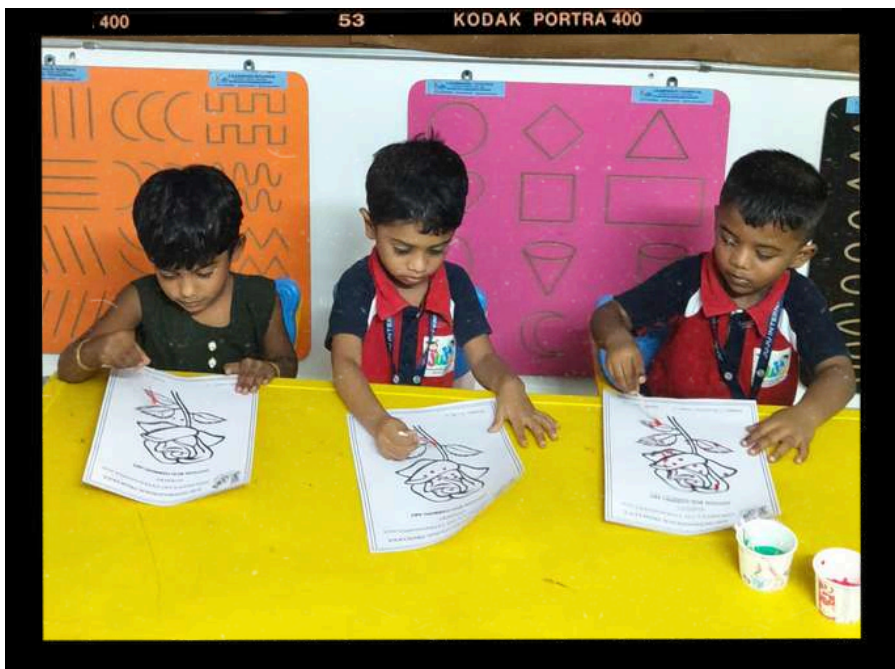

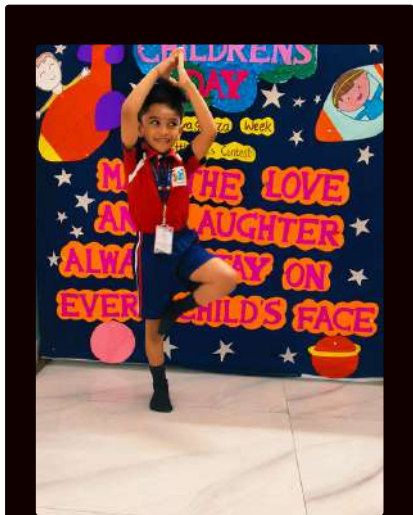

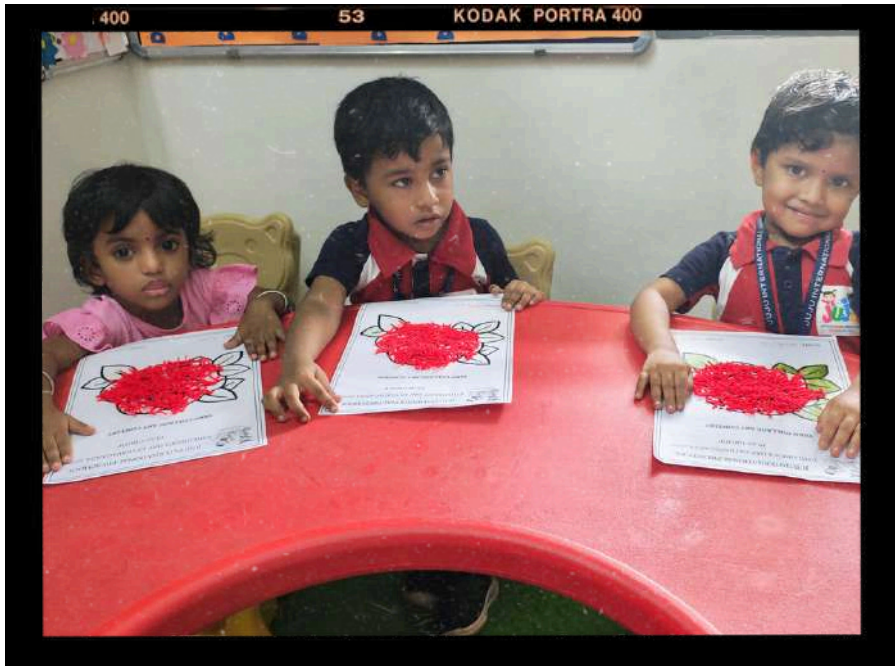

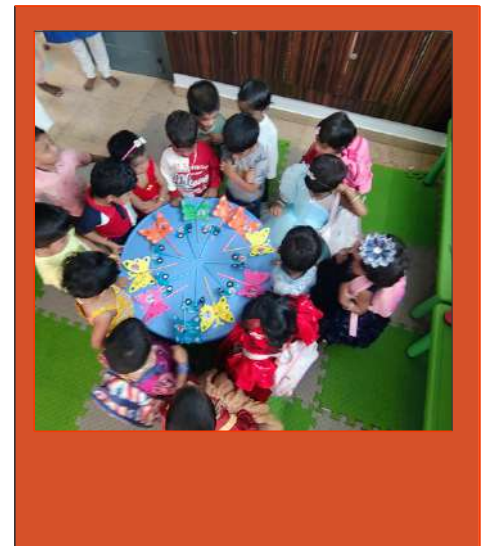

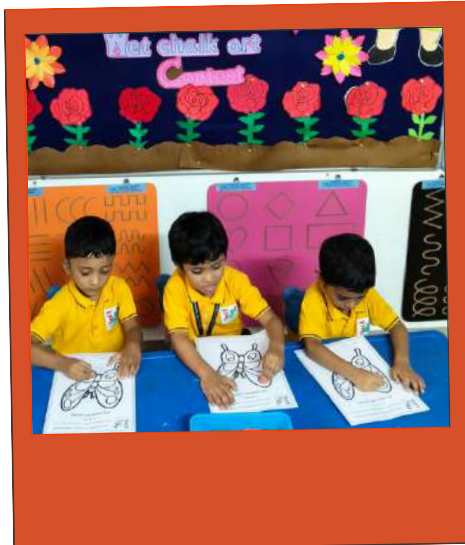

CHILDREN'S DAY EXTRAVAGANZA

The month of November was filled with enthusiasm and vibrant participation as our school hosted Contest Week followed by a joyful Children's Day Extravaganza. These events created a dynamic environment that encouraged talent, creativity, confidence, and celebration among all our students.

Contest Week began on November 10 and 11 with specially planned in-school activities for all grades. Students engaged in age-appropriate tasks designed to strengthen creativity, motor skills, communication, and classroom readiness.

On November 12 and 13, the school conducted a series of competitions for all grades. Children enthusiastically showcased their abilities in various contest categories, demonstrating confidence, teamwork, and a strong desire to perform their best. The atmosphere was filled with healthy competition and encouraging applause, making the experience memorable for every participant.

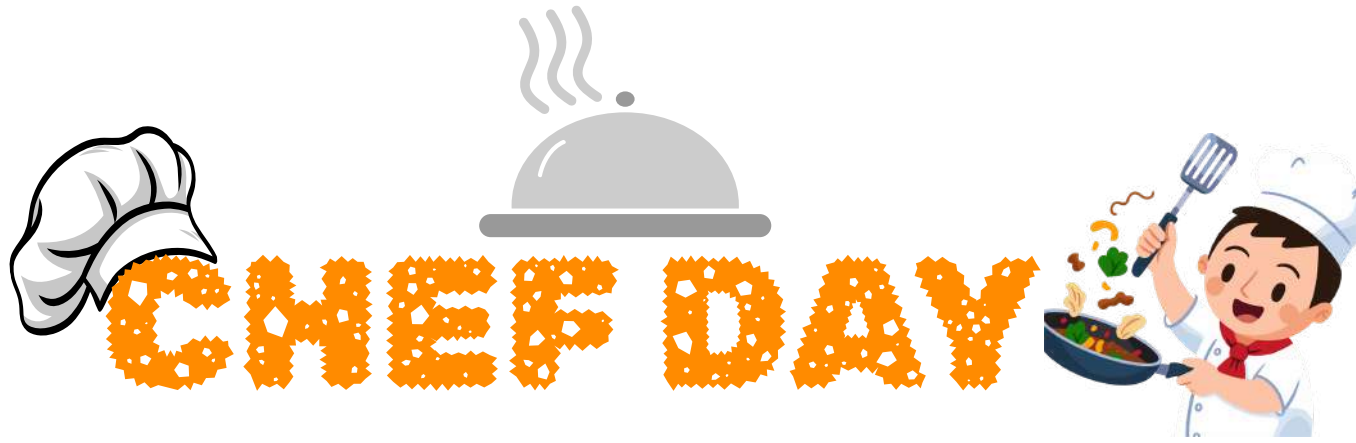

The week concluded with a grand Children's Day celebration on November 15, dedicated to honouring the spirit of childhood. Students enjoyed a joyful day filled with fun games, activity corners, interactive sessions, and a special photoshoot arranged to capture their happiest moments. Classrooms were decorated to create a festive, child-friendly environment, and the entire campus echoed with excitement and cheer.

The combined celebrations of Contest Week and Children's Day Extravaganza provided our young learners with meaningful opportunities to express themselves, build confidence, and create lasting memories. The school appreciates the enthusiastic participation of every student and looks forward to many more enriching events ahead.

JUJU International Preschool joyfully celebrated Chef Day, where our young learners transformed into little chefs and participated in exciting, hands-on food preparation activities. Each grade took part in a simple, healthy, and skill-building culinary task designed especially for their age level.

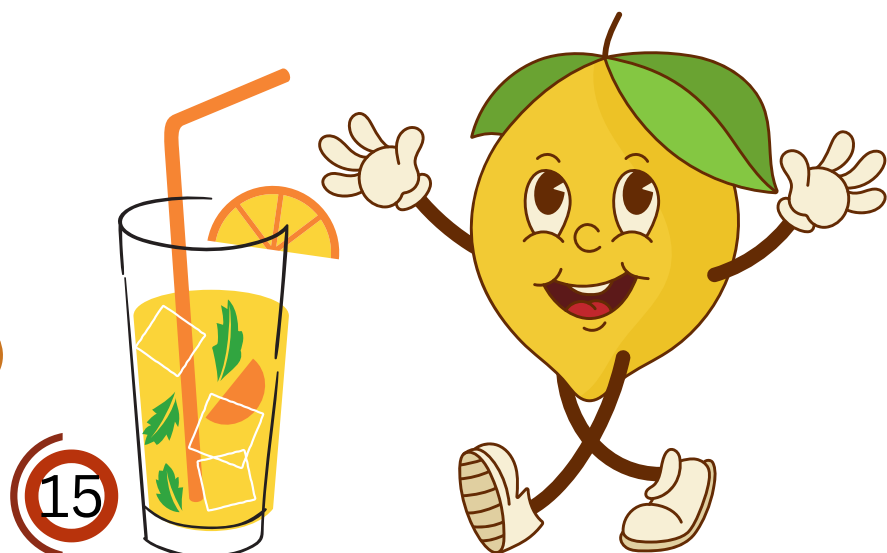

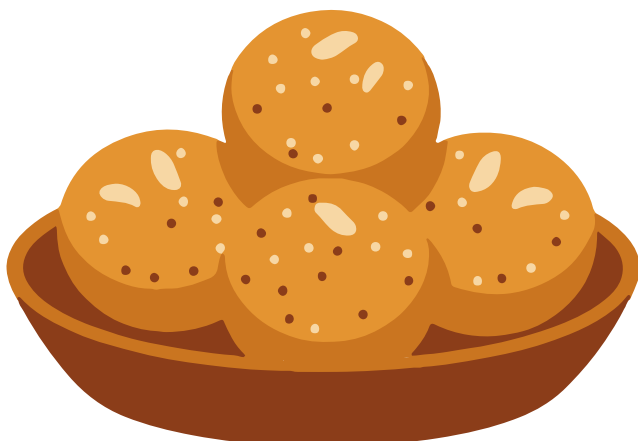

Our Playgroup's tiny chefs explored the basics of kitchen activity by preparing refreshing lemon juice. Children squeezed lemons, mixed sugar and water, and enjoyed tasting the drink they created. This activity strengthened their hand muscles and introduced them to early practical life skills

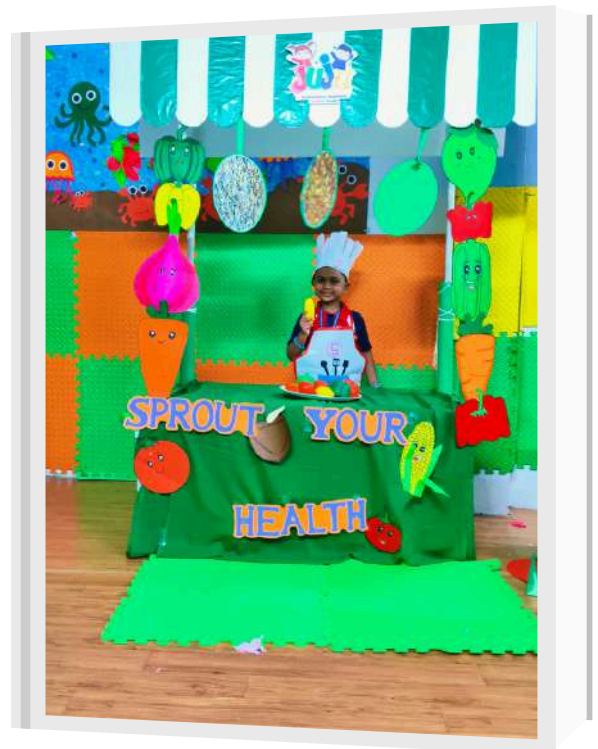

Nursery children prepared nutritious flattened rice laddus. They mixed flattened rice with jaggery and shaped the mixture into small laddus. The activity enhanced sensory exploration, coordination, and awareness of healthy traditional foods.

Junior KG students made colourful fruit salads using a variety of fresh seasonal fruits. The children learned fruit names, colours, textures, and the value of healthy eating. Mixing and assembling the salads encouraged independence, confidence, and participation.

Senior KG learners prepared a simple sprouts mix by adding lemon, salt, and chopped vegetables. This activity helped them understand nutrition, hygiene, and the benefits of including natural foods in their daily diet.

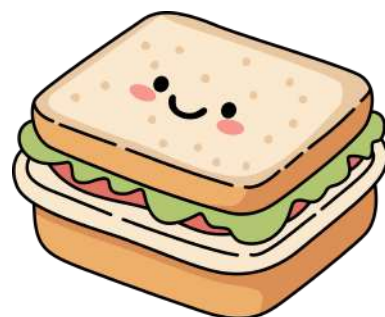

PARENT STUDENT

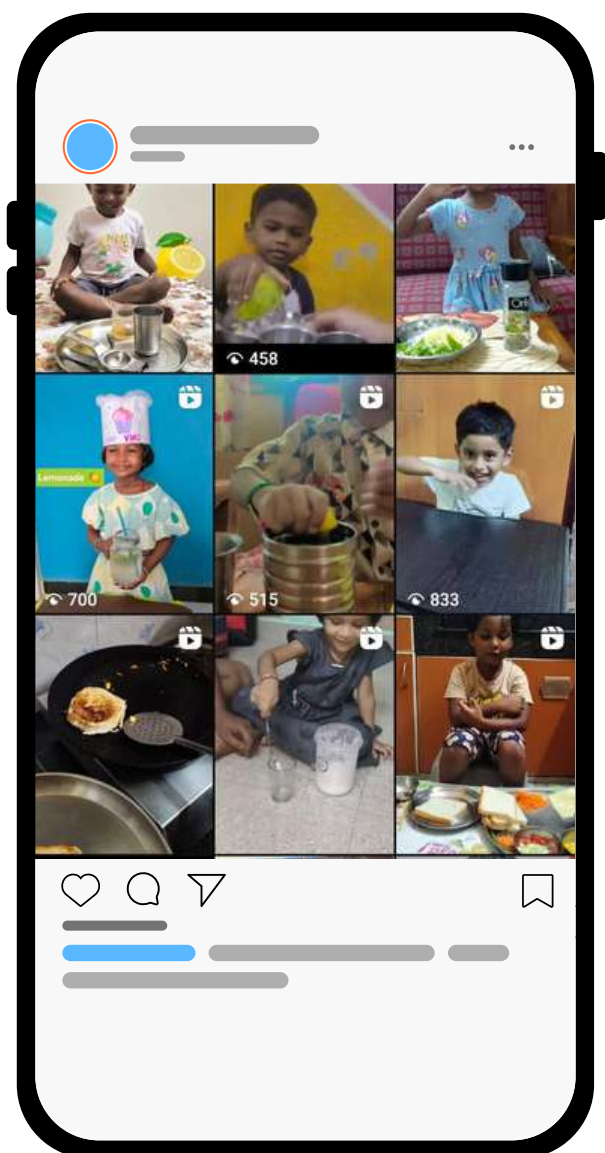

ACTIVITY

JUJU International Preschool conducted an engaging Parent–Student Activity based on the theme “Food and Nutrition”, providing a memorable hands-on learning experience for children along with their parents. Each grade participated in a unique activity aligned with age-appropriate skills, healthy eating habits, and practical life learning.

Playgroup children, with the support of their parents, created fun and colourful fruit or vegetable faces.

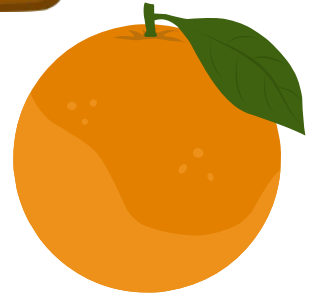

Nursery students prepared refreshing lemon juice with their parents. The process of squeezing lemons, mixing ingredients, and tasting their own drink helped strengthen fine motor skills and introduced children to simple food preparation steps.

Junior KG children prepared healthy sandwiches using fresh vegetables and spreads. Parents guided them through spreading, arranging, and assembling the sandwich. This activity promoted independence, coordination, and awareness of balanced food choices.

Senior KG students experienced the traditional process of churning butter. With parent participation, they shook cream to observe its transformation into butter. This activity deepened their understanding of food origin, physical changes, and the importance of wholesome foods.

Children enjoyed exploring real-life food preparation, developing essential motor skills, and understanding healthy eating practices. The event was highly interactive, enriching, and joyful for every participant.

ORANGE DAY CELEBRATION

JUJU International Preschool celebrated Orange Day with great enthusiasm as our campus turned vibrant with shades of orange. The celebration helped children recognise the colour, connect it with real-life objects, and enjoy a joyful themed learning experience.

Students and teachers came dressed in beautiful orange outfits, creating a lively and cheerful atmosphere. Classrooms were decorated with orange-themed charts, fruits, and craft displays to make the day visually engaging.

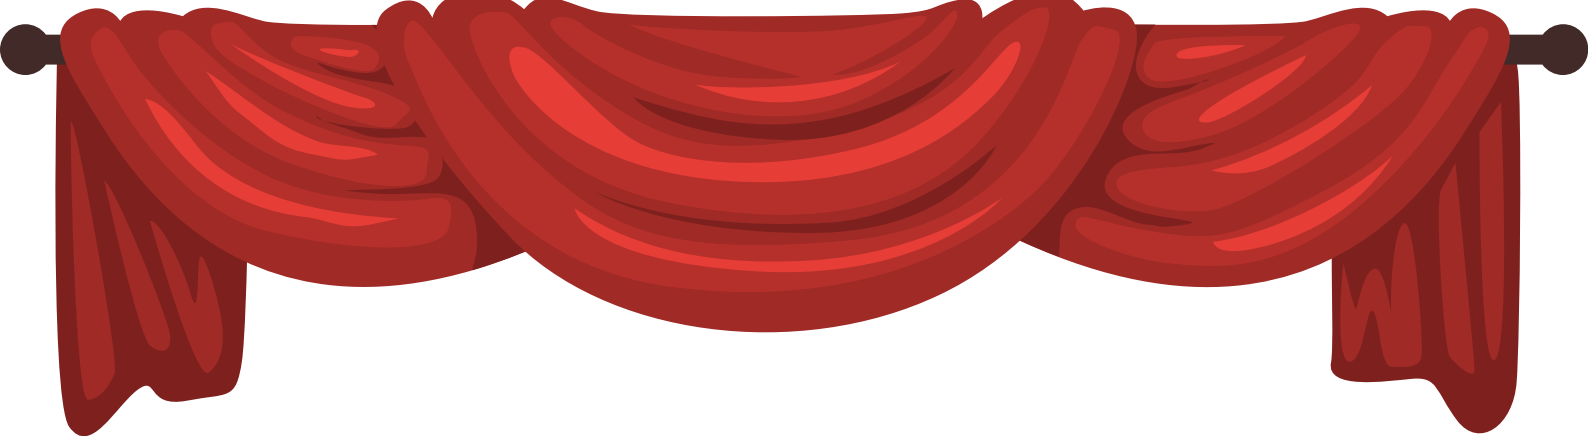

Children participated in a series of age-appropriate activities such as colouring, sticking, object sorting, and hands-on craft work using orange materials. They learned to identify common orange-coloured items such as carrots, oranges, marigold flowers, pumpkins, and goldfish. These activities supported concept reinforcement, fine motor skills, and vocabulary development.

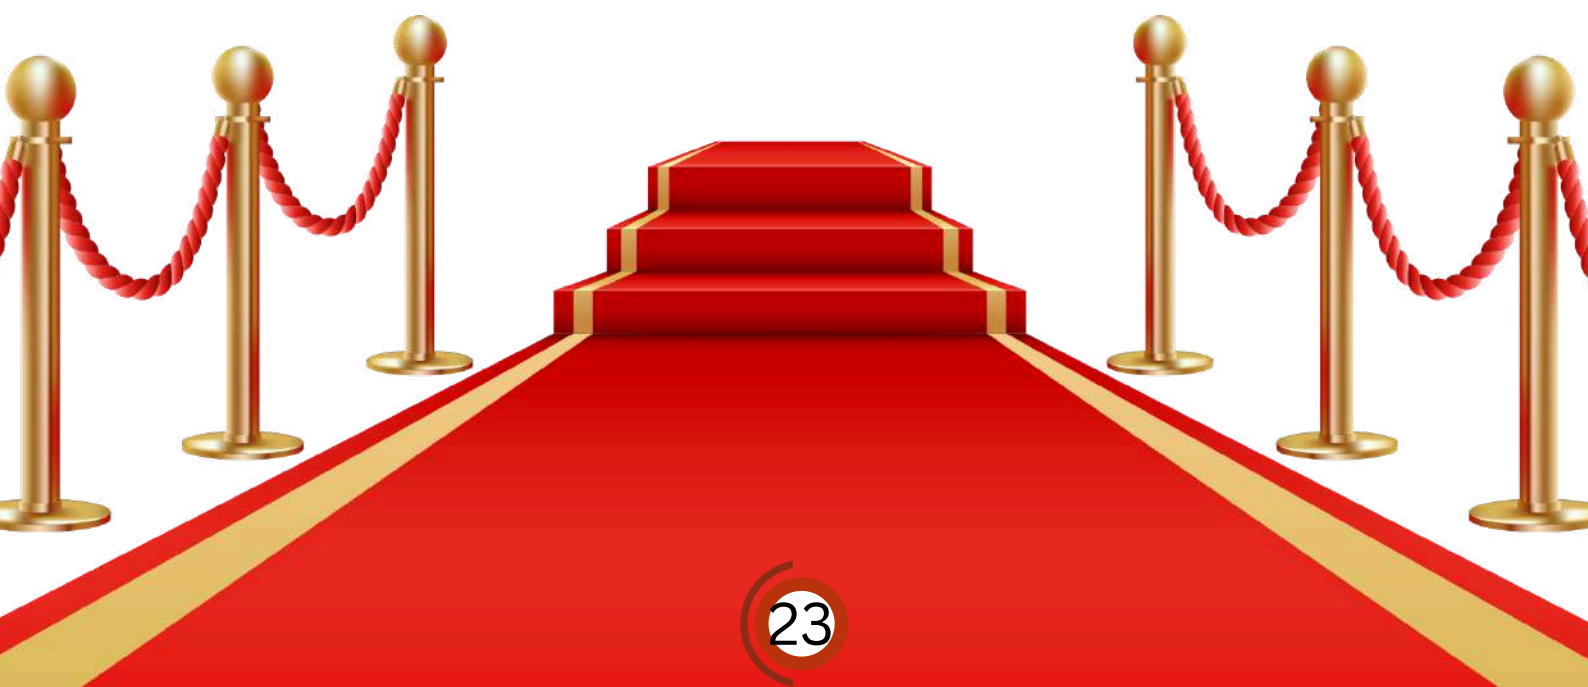

The celebration concluded with interactive discussions, a showcase of student work, and a fun photo session capturing the bright and happy moments of the day.

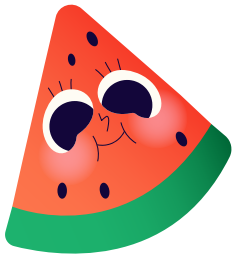

At Juju, every day is a celebration of love, learning, and little smiles — and Orange Day was one of the happiest shades of them all!

THEME: FOOD & NUTRITION

This month at Juju International Preschool, our classrooms buzzed with excitement as children explored the colourful and meaningful theme of “Food and Nutrition.” Our teachers thoughtfully designed interactive learning spaces that encouraged children to understand the importance of healthy eating in a fun, hands-on way.

The inner and outer display boards were transformed into lively visual stories featuring food groups, rainbow meals, healthy habits, and balanced plates. Vibrant charts showcased fruits, vegetables, grains, dairy, and proteins — helping children recognize each category with ease. The boards also highlighted simple nutrition messages such as “Eat a Rainbow,” “Healthy Food Makes Us Strong,” and “Drink More Water.”

This month’s theme successfully encouraged children to build a positive relationship with food – one that supports their physical growth, cognitive development, and overall well-being.

We thank our dedicated teachers for their creativity and teamwork in turning our campus into a joyful learning zone and for nurturing strong foundational habits in our young learners.
